Subject: Transmittal of Tysons Dump Site
RI/FS Project Data

Dear Ed:

Enclosed please find the requested data from the NUS Tysons Dump Site RI/FS file. This data has been copied and there is no need to return it. You will find, because of the nature of NUS involvement with this project, that the enclosed data largely consists of correspondence, transmittals, etc. Michael Baker, Jr. Inc., the RI/FS subcontractor, will be the source of most technical data regarding the site.

To avoid needless duplication, I have not sent the following items.

1. The RAMP file of EPA data previously submitted to you by Baker.
2. Draft and final copies of the RI/FS Work Plan, RI Report, and FS Report. I am sure that you currently have numerous copies of these documents in your file.

I have also not included project cost and authorization data and subcontract and solicitation information between NUS and Baker. If you desire any of this information, please let me know.

If there are any questions, please feel free to call me.

Very truly yours,

Gary W. Wojcik
